- ✓ 36" coverage, 12" rib spacing, 3/4" rib height
- ✓ Available in 29 and 26 gauge steel
- ✓ Available in 28 colors with a 40-year paint warranty.

## MULTI-APPLICATION

The M-Rib is our newest steel profile. It is primarily designed for residential roofing applications but can also be used for siding applications. This profile lands right in between G-Rib and Standing Seam. It has the clean look of standing seam without the cost and installs as easy as G-Rib. This panel is manufactured on state of the art roll-forming equipment in South-
